

Pacific Farms Egypt

Who we are?
Founded in Cairo in 2007
Pacific Farms became one of the biggest producers/exporters of fresh vegetables in Egypt

Pacific Farms is geographically diverse to ensure availability of quality produce 24/7/365

We grow year round in optimal conditions that allow for the highest yield per plant

Another benefit: it cuts down on miles driven, reducing both transportation costs and environmental effects

Geographic diversity also helps us support local sourcing programs

Our Mission
We're Earth-conscious farmers, crops experts, business freaks with a passion to deliver the very best of nature

It's our goal to be the leading in growing and exporting fresh produce in fruits and vegetables

Using strategically located farms and distribution shipping network, we create the freshest solutions. From seed to delivery

Pacific Farms with you in every step of the way

Our Vision
Food safety is of paramount importance and comes first and foremost in our minds

We are Globobias accredited with an experienced and highly qualified team of technical agronomists

we provide full technical support to our clients at all times

 bunches / iceless carton

Market Needs

Spring onions are becoming increasingly popular in the UK. Lots of consumers use them in salads or in stir fried dishes. Consumers are also increasingly becoming aware of the health properties of spring onions. So there is an increase in demand, although spring onions already had matured as a product and demand has been steady for years. This Year we exported 7 million bunches to UK and Other EU range .

Target Market

Pacific Egypt's main markets for the spring onions can be found in Europe. "Countries like Holland, Belgium, Germany, France and the United Kingdom are the most important to us.

What we prefer ?

We prefer Clients with Trading Contract with Supermarkets , as this more committed and fixed conditions for whole season , which is make it more easy and well prepared .

Packing and shipping

Spring onions are highly perishable , Sell in bunches with leaf ends trimmed. Store at 0°C with a relative humidity of 90-95%. We choose the solid white bulbs with white root hairs firmly attached, and crisp, bright green stems.

Red Onions
